**RE: Compliance Inspection Letter
Beason Farms Poultry-SOPC00114
Clay County, TN**

Dear Mr. Darrel Beason:

On September 22, 2011, the Division of Water Pollution Control (WPC) from the Cookeville Environmental Field Office conducted a Compliance Evaluation Inspection of your no-discharge Concentrated Animal Feeding Operation (CAFO) located at 9739 Heard Ridge Road in Clay County. Beason Farms Poultry is a four house CAFO containing 90,000 broilers at the time of inspection.

Permit, Nutrient Management Plan (NMP), Records

Maps, NMP, litter analysis, soil sampling results, closure plan, daily inspection records, and other requested records were all on site and available for review at the time of inspection.

Litter Storage / Handling / Disposal

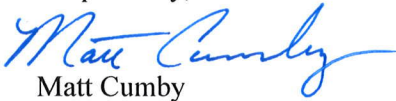

During the inspection, it was noted that litter was completely covered under the litter sheds. The litter sheds were not filled to capacity and runoff was not documented. Spreading of litter on the CAFO site was not observed on this date. Records for third party litter removal were on site and documented.

Comments

The site's rain gauge was broken at the time of this inspection but is to be replaced.

If you have any questions or comments, you may contact me at (931) 432-4015 or by electronic mail at matt.cumby@tn.gov.

Respectfully,

Matt Cumby

Environmental Specialist
